

## IMPORTANT ISTRUCTIONS ON REGISTRATION TO OPEN-ES PLATFORM

It is highly recommended that Self-assessment questionnaire included in the new Open-es platform should be possibly answered for each headquarter belonging to your Company/Holding.

This is the reason why you should register *Open-es* by indicating the relevant **DUNS Headquarter Number** on the dedicated box:

The image shows a screenshot of the Open-es registration page. The page has a dark blue header with the Open-es logo and navigation links: 'The solution', 'The community', 'How to get started', and 'Development Hub'. On the right side of the header, there are 'Login' and 'Sign in' buttons, and a language selector set to 'EN'. The main content area is a light blue registration form titled 'REGISTRATION'. The form contains several input fields: 'Name\*', 'Surname\*', 'Email\*', 'Business name\*', 'Country\*', 'D-U-N-S Number\*', 'VAT number', and 'Fiscal code'. The 'D-U-N-S Number\*' field is highlighted with a red circle. Below the input fields, there are three checkboxes for terms and conditions, and a small 'Enter' button at the bottom of the form. The background of the page features a decorative pattern of blue and yellow dots.

**One log-in account with DUNS HQ NUMBER = One Self-assessment questionnaire**

However, if a Holding has a global sustainability strategy that applies to all/most of its Headquarters, we recommend indicating the relevant **DUNS Global Ultimate Number** on the same box above.

Participation of all Suppliers in the self-assessment questionnaire is strongly encouraged by Iveco Group and the result will be reflected on the Supplier Scorecard as a key element of our sourcing process and Supplier qualification.

**If you are not the competent person to manage this activity, we kindly ask you to please forward it to the proper professional in charge within your organization and notify the new contact to [supplier.relations@ivecogroup.com](mailto:supplier.relations@ivecogroup.com)**

Thanks and regards,  
Iveco Group Supplier Relations
